- Organized and advertised quarterly networking events with 200+ participants in cities across Chennai.

GOOGLE CODE-IN   *Chennai, IN*
Mentor@Tensorflow.org   *Sept 2019 – Apr 2020*
- Managed and assisted school students in their open-source task activities.
- Provided intervention strategies and assistance with school student conflicts/concerns.
- Utilized new open-source techniques and solutions.

JP MORGAN CHASE & CO   *Chennai, IN*
Software engineering virtual Internship   *Apr 2020 – Apr 2020*
- Designed and developed modules in the financial modern application that resulted in more efficient and cost-effective methods.
- Worked on creating custom software segments through advance personalization to modify access rights for users.
- Understood the requirements through the functional design documents and prepared technical design documents.

CODE SPEEDY PVT LTD   *Chennai, IN*
Program developer Internship   *May 2019 – June 2019*
- Carried out quality assurance test to discover errors and optimization usability.
- Tested programs and databases as well to identify issues and made necessary modification.
- Researched new and emerging software applications within the technology industry to design, selected, implemented and used administrative information systems effectively.
- Collaborated with cross functional development to analyse optimistic solution-based technology requirements.

SKILLS

Programming languages: C, C++, HTML, CSS, JavaScript, SQL
Miscellaneous Technologies: Software Engineering (software design & architecture, OOAD, OOP), cyber-security, cloud computing, security in networks and software development, DBMS

PROJECTS:

Neomorphism UI social media icons : (https://imprithwishghosh.github.io/Neomorphism-UI-/)
- Developed and constructed a neomorphism UI design for social-media hyperlinks.

Online banking system :
- Originated customer information based administration. The subtleties of the users(name, exchange framework, balance, account number, contract number etc) can be kept in a track using HTML,CSS, PHP ,MYSQL.

Interactive login page : (https://imprithwishghosh.github.io/UI-TO-CODE/page1.html || https://imprithwishghosh.github.io/UI-TO-CODE/page2.html)
- Created derived UI for login and signup system.
- Invented Code to UI approach using HTML/CSS.

Elementary Calculator : (https://imprithwishghosh.github.io/JS-calculator/)
- Simple working calculator using HTML, CSS, JavaScript.

Personal Website : (https://imprithwishghosh.github.io/Portfolio/)
- Handcrafted portfolio website using HTML, CSS, JavaScript, Jquery.

Student Ecommerce website : (https://drive.google.com/file/d/1c14mOicQwfFXhkrKEokEka5GCAYdCSB-/view)

- Designed an ecommerce website using HTML, CSS, JavaScript for student's need.

Detecting sample app's vulnerability using cloud system :
(https://github.com/imprithwishghosh/resume/blob/master/Minor%20Project_Report.pdf)
- Constructed use-cases and process of sample app's flaw using distributed environment.

The Blue-Box Device : *(https://github.com/imprithwishghosh/resume/blob/master/MDD_report_team1.pdf)*
- An idea focusing on sudden crash investigation.
- Multidisciplinary approach to design system side by side.

ACHIEVEMENTS & SCHOLARSHIPS:

Srm Care Reward *Chennai, IN*
- Finished C++ labs level 1=100% level 2=60% level 3 =40% and granted with reward certificate from University. *Sept 2019*

Majulah Google Cloud Platform Winner (season1+season2) *Chennai, IN*
- Concluded MAJULAH GCP challenge organized by Google Cloud Singapore with 20+quests, quizzes and granted with authentication.

Google Cloud Platform quest leader *Chennai, IN*
- Chosen as quest leader on fruition of 39+ Google Cloud labs with 3 tracks on Google cloud, Qwiklabs.

Google Cloud DEV-JAM Top 20 *Chennai, IN*
- Concluded each of 7 days challenge and got positioned 15th in techgig GCP challenge.

100X Google Cloud Verified badges: *(https://www.qwiklabs.com/public_profiles/78282992-f53a-4ae3-aae8-c594e566f6cf)*
- Finished various technology labs on qwiklabs and procured with 100x verified identifications.

10x Google Cloud specializations: *Chennai,IN*
- Accomplished various google cloud specialization courses with the help of Google Cloud & Coursera.

Facebook Pytorch Scholarship 2019 *Chennai,IN*
- Selected by Facebook and UDACITY as PYTORCH scholar from a large pool of applicants all over the country.

EC-Council security scholarship'20 *Chennai, IN*
- Chosen by EC-council as Cybersecurity scholar from a large pool of applicants all over the world.
